Trevor Farquharson, Jun Cui, Gareth Dorset
Virtual Ants Project
Otago Polytechnic
Dunedin

Dear Trevor, Jun and Gareth,

Re: Virtual Ants Project

The Museum team would like to commend you on the successful deployment of your Virtual Ants Project that has been installed in the Nature Galleries at the Museum. The outcome is well developed and presented.

We appreciated that your team raised any issues during the course of the project that would be material to the end outcome, and were willing to take on our feedback.

Your communication as a team was professional; especially in the way that one team member has been the primary contact for us.

We are pleased with the final result that has now been installed in the gallery.

We wish you all the best for your future projects.

Yours sincerely

Rebecca McMaster
Design Services Coordinator
